

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The Journal of Geology

Published Semi-Quarterly on or about the following dates: February 1, March 15, May 1, June 15, August 1, September 15, November 1, December 15.

CONTENTS

DISCOVERY OF THE DISK OF ONYCHOCRINUS AND FURTHER REMARKS ON THE CRINOIDEA FLEXIBILIA	FRANK SPRINGER	467
STUDIES FOR STUDENTS: RELATIVE GEOLOGICAL IMPORTANCE OF CONTINENTAL, LITTORAL, AND MARINE SEDIMENTATION	JOSEPH BARRELL	524
REVIEWS AND BOOK NOTICES	E. W. S.	569

Editorial communications should be addressed to the Editors of The Journal of Geology, The University of Chicago, Chicago, Ill.

Contributors are requested to write scientific and proper names with particular care and in citations to follow the form shown in the pages of the Journal.

Separates, if desired, must be ordered in advance of publication. Separates of leading articles will be printed as ordered, of which 50 (without covers) will be furnished *gratis*, the actual cost of the remainder (and covers, if desired) to be paid for by the author. The table below shows the *approximate* cost of separates consisting of plain text or text with line engravings. The actual cost may vary from the figures given, and will depend upon the amount of work in re-making the pages into forms, press work, paper, binding, etc. Separates containing half-tones may be expected to cost somewhat more than the rates given, the increase depending upon the number of cuts and the amount of work required upon them.

Number of copies	50	100	150	200
Letter-press, for 4 pages or less	\$1.30	\$1.60	\$1.80	\$2.00
Letter-press, for 8 pages or less	1.80	2.20	2.50	2.80
Letter-press, for 16 pages or less	3.20	4.00	4.65	5.30
Single plates (1 double=2 single)80	1.10	1.35	1.60
Covers, with title (paper like Journal cover)	1.20	1.69	2.00	2.40

Business correspondence should be addressed to The University of Chicago Press, Chicago, Ill.

Subscriptions, \$3.00 per year. Single copies, 50 cents. Postage prepaid by the publishers for all subscriptions in the United States, Canada, Mexico, Cuba, Porto Rico, Panama Canal Zone, Republic of Panama, Hawaiian Islands, Philippine Islands, Guam, Tutuila (Samoa), Shanghai. For all other countries in the Postal Union 75 cents for postage should be added to the subscription price. Remittances should be made payable to The University of Chicago Press and should be in Chicago or New York exchange, postal or express money order. If local check is used, 10 cents should be added for collection.

Claims for missing numbers should be made within the month following that of publication. The publishers expect to supply missing numbers free only when they have been lost in transit.

European subscriptions, 15 shillings and 6 pence (postage included), should be remitted to William Wesley & Son, 28 Essex Street, Strand, London, European agents.

THE Reflecting NEW Lantern

For showing on the screen, illustrations in books, engravings, sketches, colored prints, flowers and mechanical models, all brilliantly lighted in natural colors. The outfit is arranged to show both opaque objects and lantern slides, and the change from one to the other may be made instantly. Attachable to any electric magic lantern.

We also manufacture Projecting Microscopes, Projecting Spectroscopes and Lantern Slides to illustrate Educational and Scientific Subjects. Send for list.

WILLIAMS, BROWN & EARLE.
Dept. 26, 918 Chestnut St., Philadelphia.

HYLO

SAVES

5/6

A Short Cut to Comfort

The "Long Distance" HYLO (shown in the illustration) is just right for the man who reads in bed.

Cord snaps on like a glove fastener. Anybody can put it in place without tools. The portable switch turns the light high or low or entirely out. Switch lasts indefinitely. Only the lamp needs to be replaced when burned out. Cords can be any length desired.

Look for the name HYLO and refuse imitations.

Twelve styles of HYLO lamps. Send for Catalogue and booklet "How to Read Your Meter."

THE PHELPS COMPANY

106 STATE STREET DETROIT, U. S. A.

THE ZEISS FIELD-GLASS

Has its two objectives separated by a distance greater than that between the eyes, thus enhancing the effects of perspective and giving the observer a sense of the relative distance of far objects. These glasses can be supplied from stock or imported to order duty paid or duty free. Full particulars and prices upon request
